

# SR System Checklist

① Stoch Crossing 25 Level From Below or 80 Level From Above?

OR

② Currencies Crossing?

③ The 50 & 40 NLMA's Both In Direction Of Trade?

---

④ Suitable Volatility (and Momentum)?

⑤ Both Current TF **Trend** and Higher TF **Trend** In Direction Of Trade?

Use TMA Slope MTF indicator as extra confirmation.

⑥ MACD Divergence? If Yes - In same Direction?

⑦ RsiMA at or below 30? Then NO SELL - or at or above 70? Then NO BUY

⑧ Long Bar or series of same direction bars (e.g. 5 or more)? If Yes – Wait For Possible Correction

⑨ Establish Previous High / Low Price Level that has to be broken before opening trade

⑩ Risk:Reward at least 1:1 ?

⑪ Calculate Lot Size

⑫ Basket Trading? Pair not correlated?

---

⑬ **Open Trade ONLY when price “breaks” Price high / low level as established before at number ⑨**

– Can use M5 timeframe for more accurate entry.

**Or use OpenTradeSR to open trade at right time**

⑭ Trade half lot size and add other half at confirmation of price direction.

⑮ Close Half at First Target and other Half at Second Target or at Trend Change.

⑯ Move StopLoss as Trade goes in positive direction.
